

# CHB Cal-Mate

## General Information:

**CHB Cal-Mate** is a humic acids solution extracted from leonardite in a proprietary formulation. **CHB Cal-Mate** is formulated so that it can be mixed with all liquid fertilizers including fish fertilizers and liquid calcium products.

**CHB Cal-Mate** is primarily designed for soil and water run applications in combination with fertilizers.

## Directions for Use:

It is recommended to shake, stir or agitate containers or tanks of **CHB Cal-Mate** just prior to usage.

**Application:** **CHB Cal-Mate** can be applied by side dress and banding equipment, water run through irrigation systems or sprayed directly on soils with other fertilizer materials. **CHB Cal-Mate** can also be impregnated into dry fertilizer blends.

**Storage and Disposal:** Store in original containers at temperatures above freezing. Dispose waste at approved disposal facility. To dispose of containers, triple rinse and dispose according to local and state regulations.

**NOTICE:** Since many pesticide products can be neutralized and/or tied up by soil organic matter, it is highly recommended not to use pesticides applied directly with humic acids. Consult pesticide representative before using on a large scale.

BG Rev 11-3-2009

Packaged:

# 0-0-1

## Guaranteed Analysis:

Soluble Potash (K<sub>2</sub>O).....1%  
Derived from potassium hydroxide

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:  
5% Humic Acids  
Derived from Leonardite

### WARNING

KEEP OUT OF REACH OF CHILDREN  
Harmful if Swallowed

Precautionary Statements:

Harmful if swallowed, inhaled or absorbed through skin. May cause eye and skin irritation. In case of contact, immediately flush eyes and/or wash skin with plenty of fresh water for at least 15 minutes.

Do not contaminate feed or food items.

Use caution in application to assure coverage on intended treatment areas only.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

### Manufactured by:

Bio-Gro, Inc.  
681 Glade Road  
Mabton, WA 98935  
Tel: 509-894-4110

## Suggested Applications:

**CHB Cal-Mate** can be soil applied and water run on all crops at rates of 2 to 15 gallons per acre.

It is best to use materials in split applications with other fertilizer and micronutrient products at 1 to 3 gallons per acre in 2 to 6 applications.

When applications are sprayed or applied directly to soil without other nutrients, dilute in 3-10 gallons/acre of water prior to application.

“Approved material under Washington State Department of Agriculture organic food program”
