

ROOTein

ROOTein

- * Blend with 10-34-0 or 8-21-0
- * Promote early root growth, especially in cool soils
- * Proven to increase sweet corn yields up to 2 tons/acre more!
- * Increase profits, lower cost of production

Starter for Corn

Side band 1 gallon/acre of ROOTein with 10-34-0 or preferably Ortho P in the form of 8-21-0 at 2" x 2". Follow up with a water run of 1 gallon/acre of ROOTein at 10" high.

Yield Data:
Bio-Gro Program 12.3 tons/acre
Control Program 11.1 tons/acre

Bio-Gro Blend

3-18-18 Only

**More Roots = Better Water & Nutrient Utilization =
More Profit**
