

CHB Wil-Pen

Guaranteed Analysis

Sodium Di-2-Ethylhexyl Sulfosuccinate.....20%
Alkyl Polyglucosides20%
Inert Ingredients60%

GENERAL INFORMATION

CHB Wil-Pen is blend of surfactants (Surface Active Agents), which when applied to the soil will improve water penetration. Surfactants can reduce the surface tension of water, causing improved water penetration.

CHB Wil-Pen can be sprayed directly onto the soil or injected into the irrigation water.

DIRECTIONS FOR USE

Applications: CHB Wil-Pen can be applied by side dress and banding equipment, water run through irrigation systems or sprayed directly on soils with or without other fertilizer materials.

Storage and Disposal: Store in original containers at temperatures above freezing. Dispose waste at approved disposal facility. To dispose of containers, triple rinse and dispose according to local and state regulations.

SUGGESTIONS FOR USE

CHB Wil-Pen can be soil applied or water run on all crops at rates of 4-8 ounces per acre during early growth stage. Apply 1-2 ounces(s) per acre during subsequent irrigation as needed. Do not apply more than 24 ounces per growing season.

When applications are sprayed or applied directly to soil without other nutrients, dilute in 20 gallons/acre of water prior to application.

CONDITIONS OF SALE

Seller and/or manufacturer warrants only that this product consists of the ingredients specified on this label. No one is hereby authorized to make any warranty and/or guarantee concerning the use of this product. Being that the use, timing, placement, rate, application and other conditions are beyond the control of the seller and/or manufacturer, the seller's and/or manufacturer's liability for handling, storage and use of this product is limited to replacement of product or refund of purchase price.
